

Dor Noy

Full-Stack Developer building with AI · Engineering and sales background

Tel Aviv, Israel · +972-54-544-6994 · dornoy5@gmail.com · dor-noy.com

linkedin.com/in/dornoy · github.com/dornoy5 · AI video work: instagram.com/vigenai5

SUMMARY

Full-stack developer (React, Node.js, Python) who builds with AI, with a background in structural engineering and two years in B2B sales. Currently building AI-generated property films end to end, from mapping an apartment out of its listing photos to checking every frame before a client sees it. At home on both sides of a product: building it, and explaining its value to the person who pays.

EXPERIENCE

AI Creator & Builder

Aug 2026 – Present

Self-employed · Tel Aviv (remote)

- Built an end-to-end pipeline that turns an agent's existing listing photos into a 60-second cinematic walkthrough: apartment mapping, per-shot framing, generation with Google Veo 3.1, edit and delivery (Python, ffmpeg).
- Wrote the quality-control process that catches what video models invent (extra furniture, melting geometry, objects not in the room); every clip is checked frame by frame against the source photos.
- Delivered the first client film to a real estate agency; publish AI property reels on Instagram.
- Run the work with three Claude Code agents (video, Instagram, LinkedIn) sharing one project, rulebook and memory.

Sales Development Representative

Jan 2025 – Jan 2026

Wachler & Wolf – Real Estate Group · Herzliya

- Generated new business through high-volume cold calling and outreach to potential real estate investors.
- Identified client needs and set qualified, well-prepared appointments for the sales team.

Sales Development Representative & Mechanical Engineering Consultant

Jan 2024 – Jan 2025

Neos Technologies, Inc. (large-diameter pipe production machinery) · Tel Aviv

- Engineering support across teams: diagnosed mechanical and technological issues, improved operational processes.
- Identified and qualified potential clients for sales, linking the technical and commercial teams.

Project Manager, Residential Renovation

2021 – 2024

Self-employed · Tel Aviv

- Ran renovations end to end (scoping, budgeting, scheduling, subcontractor trades) and owned the client relationship from first meeting to delivery.

PROJECTS

- **Poker Night Manager:** a mobile-first React app for home poker games that tracks buy-ins, rebuys and chip counts and settles all debts with the fewest possible transfers. React 18, Vite, Context and useReducer.
poker-night-manager-ten.vercel.app
- **Personal website** (dor-noy.com): Next.js, TypeScript and Tailwind CSS, deployed on Vercel.

SKILLS

AI: Generative AI, AI agents (Claude Code), prompt design, AI video (Google Veo 3.1, MiniMax), output QA

Development: Python, JavaScript, TypeScript, React, Next.js, Node.js, Express, MongoDB, MySQL, Django, REST APIs, Git, Docker, ffmpeg

Sales: B2B prospecting, cold calling, lead qualification, appointment setting, HubSpot

Languages: Hebrew (native), English (fluent)

EDUCATION

Full-Stack Development, John Bryce, Tel Aviv · Jul 2023 – Jul 2024

Structural Engineering studies, Shenkar College of Engineering, Design and Art · Sep 2018 – May 2021

MILITARY SERVICE

Israel Defense Forces, Artillery Corps · 2013 – 2016

- Team Commander: trained and led a team of 12 soldiers.
- Company Sergeant Major: logistics and discipline for about 150 soldiers.
